Network Battery Cabinet

Overview

What is a bluerack 250 Battery Cabinet?

Scalable from Kw to multi-MW, the BlueRack™ 250 battery cabinet is a safe, high-powered solution you can count on. By employing breakthrough sodium-ion cells based on Prussian blue electrodes, the BlueRack 250 delivers the following benefits: Integrated battery cabinet solution. Our power battery cabinets are available now.

Do you need a battery backup for a network closet?

Network closets and IDFs are typically remote, seldom occupied by IT staff and often neglected. The audible alarm of a UPS battery backup is useless if no one is there to hear it. However, by incorporating monitoring and alert notifications you can be notified and take action if necessary.

What is a 480 VDC battery cabinet?

Our 480 VDC Battery Cabinet is ready to ship. Scalable from Kw to multi-MW, the BlueRack™ 250 battery cabinet is a safe, high-powered solution you can count on. By employing breakthrough sodium-ion cells based on Prussian blue electrodes, the BlueRack 250 delivers the following benefits: Integrated battery cabinet solution.

What is a CIBR battery rack?

Charles Indoor Battery Racks (CIBR) are modular, seismic Zone 4 rated (GR-487 certified) battery rack systems designed to fit the footprint of VRLA batteries from a variety of battery manufacturers or Saft Tel.X Ni-Cd batteries. In addition to several standard configurations, there are also single tray options that can be built on site.

What is the BM series battery module?

The BM Series Battery Module provides sealed, maintenance-free batteries in an easy to install rackmount shelf. Multiple modules may be paralleled for

increased capacity. Installing system back-up batteries or increasing current capacity has never been easier.

Network Battery Cabinet

Battery Cabinets & Enclosures

Exponential Power's Battery Cabinets & Enclosures provide durable, secure solutions for telecommunications and industrial applications. Designed to protect battery systems, these ...
