

New Zealand Communications Green Base Station Cabinet Manufacturer

Modular design,
unlimited combinations in parallel

BUILT-IN DUAL FIRE PROTECTION MODULE

Overview

Where are base station aerials made?

Our base station aerials are handmade by experienced staff with mostly locally-made materials, supplemented by high quality European technical componentry. Our componentry is mostly sourced from suppliers within New Zealand, alongside some quality componentry from Europe. You can be sure there is no Modern Slavery in our business or supply chain.

Who is signals NZ?

Signals NZ is New Zealand Exclusive Sepura and Damm TetraFlex distributor. With the power of the mobile network, you can just Push-To-Talk to anyone on your team, no matter where they are. Finally, there are no borders or restrictions to contend with, just easy communication.

Where are base station antennas made?

Recognised as a quality antenna throughout the world, our extensive range of base station antennas provide, reliable easy to install antenna that are used by business and in the radio industry. Manufacturing of dipoles, yagis, corner reflectors and many other types of base station antennas takes place at our factory in Christchurch, New Zealand.

Are the base station aerials tested before they leave the factory?

The base station aerials that are manufactured at Hi-Tec Aerials are all tested before they leave the factory. We have three Analyzers for testing to ensure accurate testing. Our latest product catalogue can be viewed and downloaded here: Hi-Tec Aerials are the only registered distributor for Amphenol Procom in New Zealand.
