

New energy battery cabinet production equipment manufacturers

Overview

What are the products & services of a battery manufacturer?

Our main products include Battery mixer, Electrode coating machine, Electrode slitting machine, Battery winding machine, Electrode stacking machine, Battery sealing and crimping machine, and Battery test system.

Who is Tob new energy?

TOB NEW ENERGY provide a full set of super-capacitor production equipment, testing equipment and materials. TOB New Energy send engineers to the customer's factory for equipment debugging until the super-capacitor production line can run normally. After the project is completed, supply good after sales service to promise the line running stable.

What is the Targray battery division?

The Targray Battery Division is focused on providing advanced materials and supply chain solutions for lithium-ion battery manufacturers worldwide. We also advise cell manufacturers on their R&D and pilot line equipment purchases, helping identify the best tools and production processes for our materials:.

Why should you choose energy storage cabinets?

This ensures that energy storage cabinets can provide a complete solution in emergency situations such as fires. To accommodate different climates, we provide professional recommendations based on customer usage scenarios and requirements.

What equipment does Tob new energy provide for lithium ion coin cell research?

TOB New Energy provides professional coin cell lab equipment for lithium ion coin cell lab research, mainly include the small mixer device for slurry, manual film coating machine, electrode cutter, electrode press machine and crimping

machine for coin cell sealing.
