

New energy liquid-cooled energy storage battery cabinet assembly

LiFePO₄ Battery, safety

Wide temperature: -20~55°C

Modular design, easy to expand

Wall-Mounted&Floor-Mounted

Intelligent BMS

Cycle Life: ≥ 6000

Warranty: 10 years

Overview

What is a liquid cooled energy storage battery container?

ong lasting, battery energy storage system. Liquid-Cooled ESS Cabinet Liquid-cooled energy storage battery container is an integrated high-ensity energy system, Consisting of batt ry . PRODUCT SPECIFICATION Composition Of . Compact : 1.4m² footprint.

What is a battery module made of?

The external casing is made of metal covered by insulating materials. For example, the top cover is made of PP, the bottom base is made of aluminum. The copper bars and screws are connected internally to prevent short circuit to ensure the electrical safety of the battery module. Each battery module has 8 temperature detectors.

What is a battery rack?

Each battery rack contains a rack-level BMS. The positive (+) and negative (-) terminals of the battery modules are clearly marked and are designed for the convenience of connection, visual check, examine, and repair. The external casing is made of metal covered by insulating materials.

New energy liquid-cooled energy storage battery cabinet assembly

Battery - Green Building New Energy

Up to 6 modules for one Battery Cabinet. All-in-One Solution: Battery packs, charge controller, BMS, EMS and PCS with highly efficient three-level topology integrated into one unit to ...
