

New energy storage battery pack

Overview

On September 9, 2025, Tesla unveiled the next generation of its utility-scale battery systems — the Megapack 3 and a new Megablock product — designed to accelerate deployment, increase per-unit energy density, and lower project timelines for grid-scale storage.

New energy storage battery pack

[National Blueprint for Lithium Batteries 2021-2030](#)

Lithium-based batteries power our daily lives from consumer electronics to national defense. They enable electrification of the transportation sector and provide stationary grid storage, critical to ...
