

New photovoltaic solar panels in South America

Overview

In its latest report on the South American solar PV market, Wood Mackenzie has revealed that the region will add 160 GW of photovoltaic (DC) capacity between 2025 and 2034, driven by diversification efforts, growing energy demand and favorable system economics.

New photovoltaic solar panels in South America

South America Solar Photovoltaic Market Size , Mordor Intelligence

South America's largest solar photovoltaic project is underway in Brazil. Enel Green Power has started operations of a 475 MW section of Sao Goncalo solar photovoltaic plant in ...
