

# **Nigerian lithium power storage**

## Overview

---

Nigeria's vast lithium reserves, estimated to be worth over \$34 billion, is attracting global demand. Lithium is a key component in the production of batteries for electric vehicles (EVs) and renewable energy storage systems. Is Nigeria a leader in the global lithium market?

Nigeria's vast lithium reserves, estimated to be worth over \$34 billion, is attracting global demand. Lithium is a key component in the production of batteries for electric vehicles (EVs) and renewable energy storage systems. Nigeria is positioning itself to become a major player in the global lithium market.

What is Nigeria's lithium reserves worth?

Nigeria's vast lithium reserves, estimated to be worth over \$34 billion, is attracting global demand. Lithium is a key component in the.

What is the cost of lithium in Nigeria?

The cost of lithium in Nigeria is currently unknown. In 2002, lithium price was averagely US\$2,000 per metric ton, rising to US\$18,000 in 2018. The find in Nigeria simply points to the potential of Nigerian pegmatites for lithium resource. Full exploration will be necessary to determine the cost of lithium in Nigeria. The lithium supply chain involves converting lithium minerals to lithium concentrates and lithium hydroxides.

Is there high-grade lithium in Nigeria?

High-grade lithium has been discovered in Nigeria. In 2019 the total production volume of lithium, not high grade, in Nigeria reached 50 metric tons This is small compared to Zimbabwe which produced 1,200 metric tons the same year. The Conversation Africa's Wale Fatade asked geologist Ibrahim Garba for his insights.

Why should you buy lithium ore from Nigeria?

And profitable as they may seem, one of the most globally demanded minerals which are in vast volumes in Nigeria is the rich presence of Lithium Ore. International buyers all over the world are always looking to purchase Lithium Ore from Nigeria because of its quality, abundance, and price.

Is lithium gaining traction in Nigeria?

Today, the quest for lithium is gaining traction in Nigeria, with competition becoming increasingly fierce. In Nigeria, lithium is currently mined in Nassarawa, Kogi, Kwara, Ekiti, and Cross River States. In 2018, Kian Smith Trade & Co, a Nigerian mining company, announced the discovery of 15,000 tonnes of commercial lithium in Nigeria.
