

North Africa New Energy Storage Project

Overview

It is the first utility-scale energy storage project in Egypt, defining a new era for clean energy deployment in North Africa. Developed by AMEA Power and constructed by Energy China ZTPC, the 300MWh energy storage facility is a vital expansion of the existing 500MW Abydos solar power plant.

North Africa New Energy Storage Project

North Africa Energy Storage Battery Construction: Powering ...

With strategic battery storage deployment, North Africa might just become the world's first renewable energy superpower - turning golden sunlight into 24/7 golden opportunities.
