

Outdoor power supply entry-level recommendation with high cost performance

Overview

Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

Do portable power stations make camping better?

A good portable power station makes camping better. These devices power lights, phones, and small appliances when you're outdoors. We spent three months testing power stations to find the best portable power stations for camping. We tested 30 portable power stations over 12 camping trips.

How much power does a portable power station need?

For portable power stations, capacity is measured in watt-hours (Wh), telling you how much energy the unit stores. Weekend adventures typically need 200-300Wh for smartphone charging and LED lighting. Glamping and campground camping with amenities require 500-700Wh units to power fans, portable coolers, and CPAP machines.

How much does a portable power station cost?

There are a lot of models on the market, and the best portable power stations can handle everything from charging mobile devices and laptops to powering appliances and even EVs. If your needs are simple, you can pick up a good portable power station for around \$150-200. What is the difference between a portable power station and a generator?

.
