

Palau 5G communications and base station manufacturing

Overview

Is Palau ready for a 5G Open RAN network?

Koror, Palau – Palau’s digital landscape is poised for a significant leap forward with the commencement of its transition to a next-generation 5G Open RAN network.

Does Palau have a 3G network?

PNCC owns and operates Palau’s largest 3G/4G mobile network, which today has approximately 98 percent population coverage, and is delivered via almost 60 cell sites throughout the main archipelago.

What will 5G enable in Palau?

Imagine a Palau transformed by 5G: Revolutionized mobile services and smarter tourism are just some of the possibilities. Seamless connectivity and blazing-fast speeds empower residents and visitors alike, while immersive experiences, real-time recommendations, and efficient logistics elevate the tourism industry.

How will Palau be impacted by the shift to 5G?

The shift to 5G will significantly boost Palau’s current wireless network, enhancing speed, coverage, and data transmission capacity. This will open doors to a plethora of innovative applications that are currently hampered by 4G limitations. Imagine a Palau transformed by 5G:.

Will Palau be the first country in Oceania to use 5G?

Palau will be the first country in Oceania to disaggregate and modernise its mobile network using a 5G standalone core and following O-RAN principles.

How will 5G transform the tourism industry in Palau?

5G will transform Palau's tourism industry by elevating the tourism industry

with immersive experiences, real-time recommendations, and efficient logistics. This will be made possible by revolutionized mobile services, providing seamless connectivity and blazing-fast speeds to both residents and visitors.
