

Philippine energy storage product supplier

Overview

Why should the Philippines invest in energy storage?

The Philippines has a substantial incentive to face the challenges of the effects of climate change as a tropical archipelago. The country wants 50% renewables in the energy mix by 2040. As an essential part of a low-carbon energy system, the Philippines' energy storage market holds great potential.

How is Bess transforming the Philippine energy industry?

With the commercial operations of approximately 1,000 MW of BESS facilities across 32 locations in the Philippines, we are now ushering in a new era for the Philippine energy industry through significant improvements in grid reliability and the integration of more renewable power sources to the country's diverse energy mix.

Is Sungrow a good company to buy in the Philippines?

Sungrow made its first entry into the Philippines market about 10 years ago and has maintained the No.1 market position for years.
