

Philippines Power Emergency Energy Storage Application

Overview

Why is the Philippines betting on battery energy storage systems?

The Philippines is betting on battery energy storage systems (BESS) to achieve its ambitious renewable energy (RE) targets and build a more sustainable energy future.

What is EDC doing in the Philippines?

With the Philippines working to increase its renewable energy share and reduce dependence on fossil fuels, EDC's twin focus on geothermal expansion and energy storage places it at the forefront of a low-carbon transition. Follow Power Philippines on Facebook and LinkedIn or join our Viber community for more updates.

Why is EDC expanding its power supply to the Philippines?

The expansion is part of EDC's long-term strategy to provide more round-the-clock, zero-carbon power to the Philippine grid. "We want to ensure that we are ready to provide more of our reliable source of 24/7 clean power to the grid as the country accelerates its decarbonization mission," Cainglet said.

Is there a governing policy framework for energy storage?

Internationally, the department said, energy storage systems are in use for a variety of applications relating to the transmission, distribution and generation of energy. Domestically however, various stakeholders have raised concerns that there is a "lack of governing policy framework for its regulation and operation".

How many Bess projects are there in the Philippines?

DOE data reveals 1,850 MW of committed BESS projects by 2030 and 1,951 MW of indicative projects by 2033, as of November 2024. The agency projects 330 MW of BESS capacity coming online this year alone. "We have seen that battery electricity storage is a crucial technology for the Philippines," the DOE

said.

Philippines Power Emergency Energy Storage Application

What are the energy storage power stations in the Philippines?

The exploration of energy storage power stations across the Philippines reveals compelling potential and urgency for harnessing these technologies to suit the country's ...
