

Photovoltaic panels installed in Montenegro for power generation

Overview

Almost 70 MWp of rooftop solar capacity has been installed, making Montenegro a regional frontrunner in prosumer deployment. However, instead of leaving solar energy to wealthier households able to afford panels, Montenegro created a financing model that requires no upfront payments.

Photovoltaic panels installed in Montenegro for power generation

Montenegro gives green light for four solar plants totaling 127 MW

Investors in Montenegro plan to build four solar power plants with a combined capacity of 127 MW, three of which will be located on the territory of the country's capital, ...
