

Portable energy storage products successfully launched overseas

Overview

Why is portable energy storage so important?

In the U.S., there is high demand for portable energy storage due to outdoor self-driving camping needs. Japan, with its frequent earthquakes, has more regular household storage needs. Meanwhile, Europe is caught in an energy crisis, increasing the demand for home solutions for continuous power outages.

What is a Chint portable energy storage power supply?

CHINT's portable energy storage power supply uses automotive-grade lithium iron phosphate cells, offering high capacity and fast charging. It supports a 1200W pure sine wave output, has six interfaces that can support nine devices simultaneously, and has passed stringent safety and reliability tests to ensure worry-free electricity usage.

What is gotion high-tech's first portable energy storage product?

At the ceremony, Gotion High-Tech also released GenDome, its first portable energy storage product for overseas markets and Gendock 3000, its first portable mobile energy storage product at the same time.

Is gotion high-tech able to produce a battery in Europe?

The Göttingen base of Gotion High-Tech Co Ltd. (Gotion High-tech") is expected to reach the goal of annual production capacity of 6GWh and 12GWh in two phases respectively, thereby enabling the production of Gotion's battery in Europe.
