

Portugal Communications 5G tower base station electricity compensation

Overview

How many base stations in Portugal have 5G?

Since the end of the first half of 2022, ANACOM has been reporting quarterly on progress in the implementation of these latest-generation mobile communications networks. At the end of 1st quarter 2024, according to information reported by operators, there were 9,999 base stations in Portugal with 5G technology.

What is the density of 5G base stations in Portugal?

At the end of 1st quarter 2024, the density of 5G base stations in Portugal was one base station per 10 km² - on average, 97 5G base stations per 100,000 inhabitants.

How will 5G change the telecommunications landscape in Portugal?

Future Prospects: As 5G technology continues to evolve, network and spectrum sharing will likely play an increasingly important role in the telecommunications landscape in Portugal. ANACOM is expected to continue supporting sharing initiatives and updating the regulatory framework to reflect new developments and best practices.

Are 5G networks growing in Portugal?

While these indicators demonstrate the growth of 5G networks in Portugal, distribution throughout the territory has not been homogeneous, with a greater concentration of stations evident along the western coastal strip, mainly between Viana do Castelo and Setúbal, and along the southern coastal strip (Algarve).

How many 5G base stations are there?

According to information reported to ANACOM, in the second trimester of the year, "the number of base stations installed in the national territory with 5G technology amounted to 7,831 stations, distributed over 308 municipalities

and 1,833 parishes".

How many 5G operators are present in a municipality?

The number of municipalities in which the three operators are present remains broadly unchanged, while NOS is the operator with 5G base stations in the largest number of municipalities (308 municipalities), followed by Vodafone (306 municipalities) and MEO (305 municipalities). Figure 2: Number of municipalities where each operator is present
