

Romania power base station project bidding

Overview

Will Romania reopen a call to support battery storage projects?

Romania's Ministry of Energy has reopened its call to support projects of battery storage for renewable energy integration, seeking at least 240 MW and 480 MWh of resources. The original call, which referred to at least 620 MWh, was expected to see projects selected by the end of 2023, according to reports.

What are Romania's plans for a solar power plant?

The strategy is to replace its assets with solar power and gas power plants. Romania has pledged to end the use of coal by 2032. CE Oltenia selected OMV Petrom in December 2021 as its equal partner in joint ventures for photovoltaic facilities of 455 MW in total peak capacity. The oil and gas company also has ambitious decarbonization plans.

Who is Romania tenders?

The company has been promoted by a group of first generation enthusiastic entrepreneurs, having more than 50 years of cumulative business and operations expertise across various verticals. Get FREE SAMPLE TENDERS from Romania in your email inbox. Copyright © 2014-2025 RomaniaTenders.com. All Rights Reserved.

Does Romania have a good solar resource potential?

Romania has very good solar resource potential as the geographical location is favourable for utilising solar energy. Romania is located in an area with a solar potential of 210 sunny days per year and with an annual solar energy flux between 1,000 kWh/m²/year and 1,300 kWh/m²/year.

Will Romania stop using coal by 2032?

Romania has pledged to end the use of coal by 2032. CE Oltenia selected OMV Petrom in December 2021 as its equal partner in joint ventures for

photovoltaic facilities of 455 MW in total peak capacity. The oil and gas company also has ambitious decarbonization plans. The locations are in the counties of Dolj and Gorj in the country's southwest.
