

Sanan Optoelectronics Solar Panel Photovoltaic

Overview

Who is Sanan optoelectronics?

Sanan Optoelectronics (Sanan; Chinese: 三安光电; pinyin: Sānān Guāngdiàn) is a publicly listed Chinese company that engages in full-color high-brightness Light-emitting diode (LED) wafer and chip manufacturing. It also manufactures solar cell and PIN photodetectors.

What does Sanan do?

With "Technology + Talent" as its core business model, SANAN continues to drive scientific and technological advancements and innovations in Compound Semiconductors, and leads the market by transforming these innovations into commercial products and services to support its global customers.

Who owns Sanan electronics?

Gradually Sanan Group acquired most of Sanan Electronics' shares. In 2004, Sanan Group moved its headquarters to Xiamen. In February 2004, Lin's son-in-law Lin Kechuang was appointed as the CEO of Sanan Electronics.
