

# **Serbia outdoor power supply milliamps good**

## Overview

---

Do I need a travel adapter in Serbia?

The electrical outlets and power plugs in Serbia are of types C & F (see images). If your country uses the same electrical outlets and power plugs, you don't need a travel adapter. However, you may still need a voltage converter if the voltage is different.

What voltage does Serbia use?

Also, the voltage in Serbia is the same as in Europe. What Outlet does Serbia Use?

Type C plug sockets are used in Europe, Africa and Asia. They have two round pins and no grounding pin. These plugs are typically used with devices that have a voltage of 220-240V. This outlet is rated for 2.5 amps.

Where can I buy a power adapter for Serbia?

There are many different types of adapters available on Amazon that can be used in Serbia. You can purchase a universal adapter that will fit most outlets in the world, or you can purchase a specific adapter for Serbia. → Find travel adapters on Amazon. What Voltage and Frequency Are Used in Serbia?

.

Are there electrical outlets in Serbia?

No, the electrical outlets in Serbia are different from those in the United States. In Serbia electrical outlets of types C & F are used, while the United States has electrical outlets of types A & B. Do I need a travel adapter for Serbia?

The electrical outlets and power plugs in Serbia are of types C & F (see images).

Are plug sockets allowed in Serbia?

Typically, type C plug sockets are not allowed to be installed in Serbia: these outlets are not earthed and are therefore considered dangerous. Only type F power points are permitted because they are grounded and therefore significantly safer. The only (and rare) exception to this rule is that an old type C outlet should be replaced by a new one.

What if my devices are not compatible with the voltage in Serbia?

However, if your devices use a different plug type or are not compatible with the voltage in Serbia, you will need a power adapter and/or a voltage converter/transformer. The standard voltage in Serbia is 230 V, and the standard frequency is 50 Hz.
