

# **Somali Base Station Communication Project**

## Overview

---

After the start of the , various new companies began to spring up in the country and competed to provide missing infrastructure. Somalia now offers some of the most technologically advanced and competitively priced telecommunications and services in the world. Funded by Somali entrepreneurs and backed by expertise from , and

Will Turkey build a satellite launch base in Somalia?

MOGADISHU (SD) – The President of Somalia, Hassan Sheikh Mohamud, has announced that Turkey is planning to build a satellite launch base in Somalia, which will enhance Ankara's long-range missile testing program.

Why is Somalia a good place to launch a rocket?

Somalia's location near the equator offers key advantages for space launches. Rockets launched from equatorial regions require less fuel, improving efficiency and reducing costs. These geographical benefits make Somalia an ideal location for Türkiye's first spaceport. The map shows Somalia's location and the equator. (worldatlas Photo).

Why do journalists work in Somalia?

"We train journalists to share information that offers hope at the end of a dark journey," she said. "I work with journalists who are brave individuals. They want the world to hear Somalia's stories." Radio remains the most dominant media in Somalia.

What telecommunication companies are in Somalia?

Prominent Somali telecommunications companies include Somtel Network, Golis Telecom Group, Hormuud Telecom, Somafone, Nationlink, Netco, Telcom and Somali Telecom Group. Hormuud Telecom alone grosses about \$40 million a year.

How is telecommunication regulated in Somalia?

Somalia's telecommunication sector is governed by the National

Communications Law (also called the Telecoms Act) that was signed into law by president Abdullahi Farmajo on 2 October 2017, after passing the Cabinet and the two Houses of Parliament (Senate and House of the People). It entered into effect immediately.

Can media play a moderating role in Somalia?

It argues that media could play a moderating role in Somalia. The briefing explains that in the past the radio has been used to provoke tension, distrust and conflict as different warlords and clan leaders sought to control radio in their own interest. But, equally, media can be used as a force for good.
