# **South Korea Communications 5G base station subsidies**

## Overview

---

Will South Korea adopt a 5g-based industrial network?

They argue that the current network system, LTE and 5G NSA – a mixed network of 5G and LTE – works in parallel and will be good enough for the next ten years. They also claim that the current South Korean industrial market is yet mature to adopt a 5G-based industrial network<sup>5</sup>.

Does kt have a 5G network in South Korea?

As of 2024, KT is the only telecom provider in South Korea to have established a nationwide 5G SA network. KT launched its SA 5G service in 2021, becoming the first South Korean operator to do so. SK and LG U+ are operating their communication networks based on 5G NSA (Non-Standalone).

How many 5G base stations does South Korea have?

In the report, South Korea ranked first among 29 countries, including non-OECD members such as China and the European Union, in “5G base station deployment.” The country recorded 593 5G base stations per 100,000 inhabitants, significantly surpassing Lithuania (328) and Finland (251).

Is SK a 5G operator in South Korea?

KT launched its SA 5G service in 2021, becoming the first South Korean operator to do so. SK and LG U+ are operating their communication networks based on 5G NSA (Non-Standalone). Among these, SK Telecom has limitedly introduced 5G SA (Standalone) for business-to-business (B2B) purposes at SK Hynix factories. 2.

What are South Korea's Post-release policies for 5G?

South Korea implemented two post-release policies for 5G: the 5G Plus Strategy and the Digital New deal . The first of these mainly focused on the promotion of 5G-relevant industries. The second centered on supporting digital transformation to deal with the economic recession incurred from the

Covid-19 pandemic.

Which country has the most 5G base stations?

This growth was attributed mainly to the introduction of 5G. Notably, Korea was highlighted as follows: 1st in 5G Base Stations Relative to Population: Korea has 593 base stations per 100,000 inhabitants, ranking first ahead of Lithuania (328) and Finland (251).
