

Southern Europe 5G Communication Tower Base Station Project

Overview

What is the European 5G Observatory?

The European 5G Observatory covers the 27 EU Member States, and 20 additional non-EU countries, offering a comprehensive view of 5G developments across Europe and beyond. Why use the European 5G Observatory?

Fifth generation mobile communications (5G) is a key technology for digital communication and thus socio-economic development.

How does Europe compare with other countries in 5G development?

On a range of technical and other criteria, Europe compares well with other leading countries and economies in 5G development, such as the USA, China, Japan, the Republic of Korea, Singapore and Taiwan.

Which country has the best 5G network in Europe?

Within Europe, the Netherlands comes first, followed by Cyprus and Bulgaria. During its Q4 2021 results announcement KPN announced that it has modernized over 4,000 sites to date, and that its 5G network already covers more than 80% of the population using 700 MHz spectrum.

How many people use 5G in Europe?

The State of Digital Communications report published by the European Telecommunications Network Operators' Association (ETNO) states that the uptake of 5G in Europe accounts for only 2.8% of the total mobile connections, compared to 13.4% in the United States and 29.3% in South Korea: despite being available to 62% of the population.

Is Germany a hotbed for the localized 5G spectrum?

Germany has been the hotbed for the localized spectrum. German industrial players such as Siemens and Bosch, who have been at the forefront of the

Industry 4.0 movement, have already been awarded 5G spectrum and are experimenting with private 5G networks.

Is Europe falling behind a 5G roll-out target?

In Special Report 03/2022: 5G roll-out in the EU: delays in deployment of networks with security issues remaining unresolved the European Court of Auditors (ECA) warns that Europe is falling behind the following targets set in the 2016 Action Plan:

Southern Europe 5G Communication Tower Base Station Project

Thales Alenia Space leads 5G direct-to-device demonstration for ...

3 days ago · Capgemini, Thales and Thales Alenia Space have been selected by the French Space Agency (CNES) as part of a government-backed call for projects under the France ...
