

Southern Europe Household Storage Inverter Power

Overview

Is the home storage market growing in Europe?

The market for home storage is growing at a record pace across Europe. For example, in its latest market study for residential energy storage, SolarPower Europe calculates an increase in storage capacity of 71% (3.9 GWh) in the most likely scenario for the past year.

What is a SolarEdge Home Hub inverter?

The SolarEdge Home Hub inverter provides PV, storage, and backup, suitable for single and three phase residential installations and is compatible with our SolarEdge Home Battery 400V and 48V. Plus there's a full suite of smart energy devices that let you grow your SolarEdge Home as your energy needs evolve.

How much will home storage grow in Europe?

For the second year in a row, the home storage growth path in Europe turned out to be significantly higher than what we had previously forecasted. In last year's edition of this report, we assumed the market would grow 28% to 1.4 GWh.

What role does Germany play in the European home storage market?

The central role of Germany in the European home storage market cannot be underestimated. However, although still the country currently providing the vast majority of the total European annually installed capacity, with a 59% share, its predominance is decreasing, down 9% absolute compared to the previous year.
