smooth and stable system

Overview

is one of the first countries to deploy large-scale , and is the world leader in (CSP) production. Spain is also one of the European countries with the most hours of sunshine. In 2022, the cumulative total installed was 19.5 GW, of which 17.2 GW were solar PV installations and 2.3 GW were concentrated solar power. In the same year.

The Solnova Solar Power Station is a large power station made up of five separate units of 50 each. With the commissioning of the third 50 MW unit, the Solnova-IV in August 2010, the power station ranks as one of the in the world. Solnova-I, Solnova-III, and Solnova-IV were commissioned in mid-2010 and are all rated at 50 MWe in installed capacity each. All five plants are built, owned and operated by .

Spanish High Temperature Solar System

Los Planetas - Planets in Spanish

Spanish Game: Juego de Los Planetas de nuestro sistema solar - This game has questions in Spanish based on the information and fun facts we published on our Spanish vocabulary page.
