

Swedish electricity emergency energy storage price

Overview

How many energy storage facilities are there in Sweden?

The opening ceremony for one of the 14 facilities was held in Eskilstuna. The Role of Energy Storage in the Energy Transition Since 2023, Ingrid Capacity and BW ESS have been working together on 14 large-scale energy storage projects strategically located within Sweden's electricity grid in price zones SE3 and SE4.

How much does electricity cost in Sweden?

The price in northern Sweden has fluctuated between 20 and 66 öre/kWh since the introduction of bidding zones. Electricity prices in northern and southern Sweden were divided into four bidding zones on 1 November 2011, before which it consisted of a single bidding zone.

Should Sweden have an electricity surplus?

Such an electricity surplus would help to reduce the impact of Europe's electricity prices on Sweden. At the same time, there is a risk that the situation in the electricity market will worsen. A cold, prolonged winter would lead to extreme prices and possibly manual disconnection of consumers.

How many energy storage facilities will Ingrid capacity build in Sweden?

Ingrid Capacity plans to build an additional 13 energy storage facilities in Sweden by the end of 2024, with a total capacity of 196 MW/196 MWh. By the second half of 2025, the company aims to have over 400 MW/400 MWh of flexible resources in the Swedish electricity grid.

Does Sweden have a retail electricity market?

The Swedish retail electricity market has been open to competition since 1996, and prices are set by market participants. There are approximately 5.6 million electricity customers in Sweden, of which approximately 4.7 million are household customers⁸³.

How much did electricity cost in Sweden in 2023?

In 2023, electricity prices were significantly lower than in 2022 in all Swedish bidding zones. On average, the system price was 64 öre/kWh in 2023, which was a decrease of 55 per cent compared with the previous year's prices. In the four Swedish bidding zones SE1, SE2, SE3 and SE4, the average prices were between 46 and 74 öre/kWh.
