

Tax rate for energy storage services provided by energy storage power stations

Overview

How has the energy storage industry progressed in 2024 & 2025?

The energy storage industry has continued to progress over the course of 2024 and into 2025, buoyed in significant part by the federal income tax benefits in the form of tax credits enacted under the Inflation Reduction Act of 2022 (IRA).

How will state taxes affect renewable generating companies?

This increase in renewable generating companies will have state tax implications. "States may impose several taxes on renewable generation companies, including income tax, franchise tax, capital stock tax, gross receipts tax, property taxes and sales and use taxes," Wade and Herzberg wrote.

Are IRA tax benefits a viable option for energy storage facilities?

While the vitality of the IRA tax benefits in their current form is currently subject to uncertainty given the results of the 2024 federal general election, the existing market practice for financing energy storage facilities since the IRA's passage continues to evolve in reaction to the act's new requirements and opportunities.

What regulatory guidance has the government released on energy storage?

Of particular importance to the energy storage industry, the government has released final regulatory guidance for the ITC (both Section 48 and 48E of the Code), prevailing wage and apprenticeship (PWA) requirements, and transferability and direct payment, as well as other guidance on the energy community and domestic content tax credit "adders."

Is a stand-alone energy storage a qualified person?

Notably, no NAICS code describes stand-alone energy storage, and there is no published guidance on whether a stand-alone BESS could be a qualified

person. Stand-alone BESS is subject to property tax. Texas offers an incentive program referred to as chapter 312 to attract new capital investment that has benefitted renewable development.

Do energy storage systems qualify for a manufacturing exemption?

The Texas comptroller has published at least two private letter rulings explaining that energy storage systems do not qualify for the manufacturing exemption because the batteries are for storing the energy, and storage is not essential to generating the energy. 17

Tax rate for energy storage services provided by energy storage po

[What is the tax rate for energy storage services](#)

Energy storage installations that begin construction after Dec. 31,2024,will be entitled to credits under the technology-neutral ITC under new Section 48E (discussed below). The base ITC ...
