

Tender for China Mobile s 5G backup base station power supply

Overview

What are the biggest 5G base station contracts awarded this year?

The China Mobile tender represents the biggest 5G base station contracts awarded this year.

How much will Huawei buy China mobile's 5G base station?

Huawei secured 52 per cent of China Mobile's 5G base station work, the largest portion of the contracts put out for tender this year. The deal would involve the sale of 45,426 5G base stations worth about 4.1 billion yuan (US\$574 million), according to calculations by the South China Morning Post using bid details published by China Mobile.

How many 5G base stations will China Mobile install in 2023?

The successful firms were announced last Friday, about a month after China Mobile solicited equipment suppliers to bid for two contracts for the installation of a total of 86,980 5G base stations between 2023 and 2024, adding to China's existing 5G network, considered the world's largest.

Who won a 5G contract in China?

Huawei wasn't the only Chinese vendor to win a sizeable chunk of the tender, with ZTE the second-largest winner with around 26 percent of the contract, equivalent to 23,227 5G base stations. Smaller contracts were also awarded to Datang Mobile Communications Equipment, Ericsson, and Nokia Shanghai Bell.

Which companies have been awarded a 5G contract?

Smaller contracts were also awarded to Datang Mobile Communications Equipment, Ericsson, and Nokia Shanghai Bell. China Mobile plans to operate more than 1.6 million 5G base stations this year, increase its number of cloud servers by more than 240,000 units, and add 40,000 external data center racks.

How many 5G base stations did Huawei secure?

Huawei is estimated to have secured 45,426 5G base stations worth an estimated 4.1 billion yuan (US\$574 million). Huawei wasn't the only Chinese vendor to win a sizeable chunk of the tender, with ZTE the second-largest winner with around 26 percent of the contract, equivalent to 23,227 5G base stations.
