

# **The difference of solar panels in Azerbaijan**

## Overview

---

Azerbaijan's renewable energy sources are hydropower, wind, solar, and biomass power plants. Together, these generated 1.48 billion kilowatt-hours (kWh) of energy in 2018, comprising almost 9% of the total production of 17.2 billion kWh. Solar Power Plants of 20 MW and over include: • Garadagh Solar Power Plant – 230 MW
