

The largest outdoor solar integrated machine

Overview

What is Maximo solar & how does it work?

Maximo recently made its utility-scale debut at Oak Ridge Solar Farm in Louisiana—a project enabled by Amazon—where it successfully and efficiently installed solar panels while weathering high temperatures.

Can Maximo reduce solar installation costs?

Meet Maximo. Invented and owned by energy company and developer AES, Maximo can reduce solar installation timelines and costs by as much 50%, which AES says is helping accelerate project timelines, creating new workforce opportunities, and making it far less strenuous for construction crews in hot weather conditions.

Can AI-powered robots help build solar farms faster & smarter?

The robot, called Maximo, can reduce solar installation timelines and utilizes cutting-edge technology developed by AWS. A first-of-its-kind AI-powered robot is helping build Amazon-enabled solar farms faster and smarter. Meet Maximo.
