

UAE large-capacity energy storage battery

**Low Voltage
Lithium Battery**

6000+ Cycle Life

Overview

Why should UAE invest in solar power & battery energy storage?

The world-leading project reflects the vision and commitment of the UAE leadership in driving socioeconomic and environmental progress. The accelerated integration of solar power and advanced battery energy storage sets a new benchmark in clean energy, driving sustainability and reducing carbon emissions.

What is the largest combined solar and battery energy storage system?

Delivering up to 1 gigawatt (GW) of baseload power every day generated from renewable energy, it will be the largest combined solar and battery energy storage system (BESS) in the world.

Why should we invest in the UAE energy sector?

Guided by the UAE leadership, this united effort within the energy sector powers the nation's technological advancement, ushering in a new era of intelligence, resilience, flexibility, and commercial opportunity while ensuring sustainable and uninterrupted energy for exponential growth.
