

UK outdoor power lithium battery specifications

Overview

What are lithium leisure batteries made of?

The cells that store the electricity in lithium leisure batteries are made of lithium, iron, and phosphate. The exact chemical formula that these batteries use, which has also become a common shorthand reference when talking about these units, is ' LiFePO_4 '. So if you ever see that abbreviation, they're talking about lithium leisure batteries.

Are lithium leisure batteries the future of power storage?

Lithium leisure batteries are the future of power storage for caravans, motorhomes, boats, and off-grid adventures. Compared to traditional lead-acid batteries, they offer: **Lightweight Design:** Up to 50% lighter than lead-acid batteries. **Longer Lifespan:** Lasts 3-5 times longer, saving you money over time.

Should you use lithium leisure batteries with inverters?

When using lithium leisure batteries with inverters, it's crucial to adhere to the maximum rated discharge limits. Here's why: **Battery Protection:** Exceeding the rated discharge can strain the battery, leading to overheating, reduced lifespan, or even permanent damage.

Why should you choose eco tree lithium leisure batteries?

High-performance: 2000 × 100% deep discharge and will do in excess of 4000 cycles at 80% Depth of Discharge. Drop-fit footprint replaces most Lead-Acid, Gel or AGM batteries. **Uses for a Leisure Battery** Why choose Eco Tree Lithium Leisure Batteries?

Want reliable and sustainable power?

Eco Tree is your best choice to save money and weight!.

How much does a lithium battery weigh?

Lithium batteries are significantly lighter than AGM or gel batteries. For example, a 100Ah lithium battery typically weighs around 10-13kg, while its lead-acid equivalent can push 30kg or more. 2. More Usable Power With a lithium leisure battery, you can use up to 90-100% of the battery's capacity without damaging it.

Should you buy a lithium leisure battery?

In contrast, lithium batteries can easily deliver ten times more cycles, offering far better value in the long run. Before you take the leap, there are a few things to keep in mind: Battery Management System (BMS): Most lithium leisure batteries come with a built-in BMS to monitor charging, discharging, and temperature.

UK outdoor power lithium battery specifications

High-Performance 12V Lithium Leisure Batteries , Lithium Pro ...

Explore our range of high-performance 12V lithium leisure batteries at Lithium Pro Energy. Choose from Compact Lite, Ultravolt, ArcticXtreme, and more.
