

US lithium iron phosphate energy storage power station

Overview

The factory is expected to have an initial production capacity of 10 GWh, primarily serving Tesla's energy storage business and select vehicle models. The equipment is supplied by CATL, while Tesla retains full operational control of the facility.

US lithium iron phosphate energy storage power station

American Battery Factory Breaks Ground On Largest U.S. Lithium Iron

Located on 267 acres in Pima County's renowned Aerospace Research Campus - close to world-class companies such as Raytheon - ABF's Tucson gigafactory will be the ...
