

Use outdoor power supply at night

Overview

For those in need of power outdoors for a short time, such as to trim your bushes, power a bounce house for your kid's birthday, or provide lighting for a party, an extension cord will get the job done for a day or two. Be certain to only use extension cords marked for outdoor use, which are designed to.

When running power outside, a GFCI-equipped outlet ensures safety, and is required by code in all areas exposed to moisture, like the outdoors. When adding an outdoor outlet, be sure to choose an outdoor-rated, weatherproof model with built-in, high.

For lighting, lawn tools used on the regular, or outbuilding power needs, you need a permanent power solution for safety, whether that involve an outdoor outlet addition to.

When adding an outdoor outlet, look for a conveniently located indoor outlet to connect to with the wiring. Drill a hole through the house.
