

# **Uzbekistan solar rooftop power generation system**

## Overview

---

Uzbekistan is a country in Central Asia with a growing demand for electricity. Solar power can play a role in meeting this demand, as the country has abundant solar resources and a strong potential for solar energy generation. The government of Uzbekistan has implemented several initiatives to promote the use of solar power, including the development of large-scale solar power plants and the introduction of incentives for individuals and businesses to install solar panels. S. Uzbekistan is a country in Central Asia with a growing demand for electricity. Solar power can play a role in meeting this demand, as the country has abundant solar resources and a strong potential for solar energy generation. The government of Uzbekistan has implemented several initiatives to promote the use of solar power, including the development of large-scale solar power plants and the introduction of incentives for individuals and businesses to install solar panels. S.

Uzbekistan will allocate \$154.15 million in preferential loans to encourage installation of solar panels and water heaters. Under this program, at least 50% of available rooftop space on homes and businesses will be designated for solar equipment, energy minister Jurabek Mirzamakhmudov announced.
