

Vietnamese brand solar system engineering

Overview

Who makes solar panels in Vietnam?

In particular, the company produces monocrystalline and polycrystalline solar panels with current capacities that range from 3W to 320W. Located in the suburban area of Ho Chi Minh City, Vietnam, Solar Power Vietnam makes use of solar cells from Solar World (Germany) and Suniva (the U.S.A.).

Who are the key players in the solar energy industry in Vietnam?

The Vietnam solar energy sector is moderately dispersed with a number of key players operating within the market. These firms range from local enterprises to multinational corporations, all contributing to the growth and development of the solar energy industry in the country.

Why is Vietnam a good place to invest in solar energy?

The sunny quality of Vietnam's climate is actually a good sign right now because it means that this country can be a place where the solar industry can thrive. And the solar industry will thrive because there is already a growing demand for renewable energy nowadays and solar is arguably the most popular choice for renewable energy.

Where are allesun solar panels made?

The company has its headquarters in San Jose, U.S.A., but it also owns two marketing or sales companies in Canada and the U.S.A. and two manufacturers in Vietnam and India. Allesun's PV modules are manufactured with the supervision of the ISO90001 standard. As a result, they have obtained TUV/Intertek (IEC CE) and CSA (UL) certificates.
