

# **What are the 5G outdoor base stations in Bosnia and Herzegovina**

## Overview

---

What are the limits of electromagnetic fields for 5G in Bosnia & Herzegovina?

Bosnia and Herzegovina has no specific guidelines for the limit levels of electromagnetic fields for 5G yet, as only one operator started testing 5G networks, while others are focusing primarily on the continuity of 4G expansion in the country.

Will Bosnia & Herzegovina be covered by 4G?

The plan was that more than 40% of Bosnia and Herzegovina's territory would be covered by 4G networks in 2020 and 75% by 2024. The licenses also pointed that allocated frequencies for 4G would allow coverage of rural areas with lower population density, and operators will be able to plan the development of their networks more efficiently.<sup>23</sup>

Is BH Telecom launching a 5G network?

A few months after the 4G kick-off, in August 2019, Sarajevo-based BH Telecom—along with its partners Huawei, Ericsson, and Samsung—presented the 5G networks capabilities, including opportunities and applications of new technologies.

Does BH Telecom have a 5G master plan?

BH Telecom claimed that the company adopted a master plan for the implementation of 5G back in 2017.<sup>26</sup> BH Telecom also made it explicit that its investments during 2019 on 4G and 5G have been higher than the three previous years.
