

What is the energy storage battery company in Mauritius

Overview

In March 2025, GSL Energy successfully installed a 25kWh stackable energy storage system in Mauritius, Africa. Why is battery energy storage system being introduced in Mauritius?

The CEB is introducing a Battery Energy Storage System (BESS) on its network to arrest the fluctuation inherent to Variable Renewable Energy (VRE) systems. This is due to the increasing share of VRE in Mauritius' energy mix, as the country's energy transition to a low carbon economy gains momentum.

Does Qair Group operate solar energy farms in Mauritius?

Qair Group already operates three solar PV and wind energy farms in Mauritius with a combined capacity of 35 MW. The group founded by Jean-Marc Bouchet has a combined renewable energy capacity of 860 MW operational in Africa, South-East Asia, South America, and Europe.

What is Mauritius' long term energy strategy?

The Government of Mauritius' Long Term Energy Strategy 2009-2025 aims to increase the share of renewable energy in our energy mix to 35% by 2025. This includes reducing the country's dependence on coal and heavy oil for electricity generation.
